

Can you help??

This sweet cat is Jack. He was abandoned by his previous owner, and is now in serious need of medical attention.

Friends of Jack is a small group of neighbors that is trying to raise enough money to help Jack return to optimum health. He is in serious need of oral care. After a visit to the vet, we learned his mouth is painfully infected, and he will likely need several teeth removed. Jack also has severe hyperthyroidism, a condition that is life-threatening, but with proper medical care, also curable. Unfortunately, treatment for both of these conditions will cost approximately \$2,500.

If you can make a donation (all amounts are welcome!) to help Jack feel better and live many years in comfort, please contact *Friends of Jack*: helpfriendsofJack@yahoo.com, (206) 465-2596 (John and Deb), (206) 782-1627 (Mindy).

All donations can be made directly to the veterinary clinics where Jack will be treated, if we can raise enough money.

On behalf of Jack,

THANK YOU!!!
